

Message 9/21/2025

Don't be like the person who had only one talent and went and buried it. God wants us to rise up and use our talents to glorify Him. Don't face eternity with regrets and disappointments. Become who you were created to be. Let God test you and develop you to bring great glory to Him. This is our testing ground or proving ground to show to the world and the devil that God can and will do great things for them that believe. Become what God designed you to be. Rise up and set your heart like a flint that "I'm going to do this." Seek first the kingdom of God and His righteousness and all these things shall be added to you. Prove out the Word of God—Believe the Word of God—Live out the Word of God. Develop a deep relationship with the Word of God. It will transform you into something beautiful, like a beautiful butterfly from a caterpillar. You can do nothing of value without Him. But with Him you can do all things. Step out of the boat, like Peter, and walk on the water. Get so full of God that you become a firebrand, a light to show the way. So, how do we get there? **Psalms 119:105** Your word is a lamp to my feet And a light to my path. NKJV. There is a path for you to follow and you go one step at a time as the light of the Word illuminates the path. You're going into a place you have never been before. But it's exciting and you are fellowshiping with the God who created the heavens and the earth, so rise up to the challenge and let Him bring glory to Himself and great joy to you as you become workers together with Him. Press on into Him for He is the creator and He knows what you will become. He is the master potter who wants to make a beautiful vessel of honor that will bring great glory to Him. Get excited in Him. He will bring great satisfaction and joy to you that you have never experienced before and you will accomplish mighty deeds you never thought possible. So rise up to the challenge and let Him fully rule in your life for the greatest, most exciting adventure you could ever have. He is with you and you will succeed far beyond your wildest dreams. So give yourself fully to Him and step out into your

destiny. You will never be sorry and the world is anxiously waiting for your development. They are looking for something that is real: the possibility that there is a God out there that cares for them and desires to have a relationship with them. They are tired of the pretenders who are powerless and have nothing to offer them. The creation waits for you to become what your Heavenly Father has prepared you for. Will you allow Him to take ruler ship over your life and build you into something great? Will you put your trust in Him, believe His Word and step out into His plan for your life? He is anxiously waiting. The decision is yours. If you move forward in this, He will empower you by His creative Spirit and make something spectacular out of your life that you will never regret. Don't bury your talent but let Him develop it for you for you can do nothing in your own power or ability but with Him you can do all things. Make your decision right now and give yourself to Him and see what He will do. You won't regret it.

Father God, this is your message to your people for today for today is the day of salvation for them. Break through into their hearts and give them eyes to see what they can become in You. Father God, You love these people and want to develop them into what You always desired for them to be. Make them great warriors that will glorify Your Name before the whole world. Let these people be the ones the world is waiting for that will bring hope to those who are in great need; those who are desperate, who have no hope and don't know for sure that You even exist. God, cause them to rise up and move forward into You this day. Cause them to believe in Your word and trust You to perform that which You so desire to do for us this day. Father, You are giving us the opportunity of a lifetime, so to speak, to move forward into the most exciting adventure that we could ever imagine, to see how great and powerful You are and to demonstrate that to the world around us so they may come to Know You and be rescued from their hopelessness and despair, to a life of joy and peace and a hope of eternal life with You.
